This is the third office action for application number 10/630,132, Flex Grip Fixture Clamp, filed on July 30, 2003.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the primary reasons for the allowance of the claims in this application are the limitations of a flex grip fixture clamp wherein a progressive support clamp is actuatable via a handle from an open position to a support member clamp position, the support member clamp position precluding movement of the fixture clamp with respect to a support member and allowing rotation of a ball, and wherein the progressive support clamp is further actuatable to a full clamp position, the full clamp position fixing the position of the ball, now essentially included in independent claims 1, 6, 7, 9, 11, and 17-21, in combination with the other elements recited in each claim respectively, which is not found in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
